

Accessories

DIY Fence Panel Kits

- Create beautiful fence lines or install with a gate to fill a larger opening
- Dimensionally stable Lumber - Kiln-dried clear Cedar
- Custom Sizes - Cut board lengths to adjust to overall height and width requirements
- No nailing, so board will not split or come loose
- Corrosion resistant powder coated lag screws
- Includes heavy duty brackets
- Installs between free standing posts (NOT included)

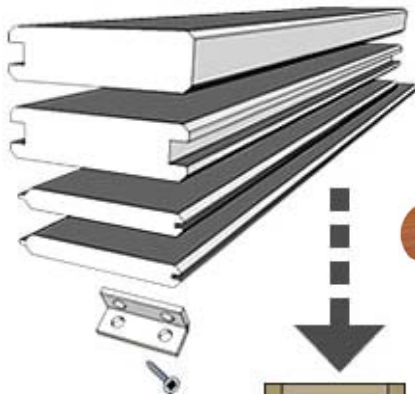

TIP!

DIY Panel Kits are customizable for your project needs. Fill in large openings or create a fence line.

Fence Panel Mounting Bracket

SPOTLIGHT!

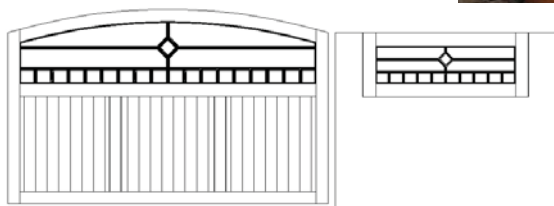

PRE-ASSEMBLED PANELS

Our Custom Shop can fabricate matching Fence Panels or Wall Toppers to go with any of our Gate Collections.

Wall Toppers

Wall Toppers are a great way to heighten the fence line and continue the gate design across your property. Wall Toppers come pre-assembled in the custom sizes you specify.

ACCESSORIES

Fence Panels

PreAssembled Fence Panels are constructed with the same Mortise and Tenon joinery as our finely crafted gates. PreAssembled Fence Panels can be customized to the dimensions needed to fill in the balance of an existing opening or to complement the proportions of the gate. These can also be fabricated to match the customizations and finish of the gate you choose.
